

A close-up, slightly blurred photograph of a field of tall green grasses. The grasses are blowing in the wind, creating a sense of movement and texture. The colors range from vibrant green to a slightly darker, more muted green in the shadows.

Becoming an Observer

With Marie Butcher of CRWC

Simple Guiding Questions for Today

What do
you see?

What do
you hear?

What do
you wonder?

RECORD YOUR OBSERVATIONS IN YOUR BACKYARD.

Bonus Question: How do you feel
when you see a tree in a new
light...when you hear songbirds...

OBSERVATIONS AT PALO CORONA REGIONAL PARK FROM
YESTERDAY

TREE STORY*

Recommended Resources for your nature observations

Local Resources:

Hastings Natural History Reservation <http://hastingsreserve.org/>

Citizen Science Resources & Apps:

Nature's Notebook: https://www.usanpn.org/natures_notebook

Phenology Project

iNaturalist

Birder

*Invitation to
share your
observations with
us at CRWC*

You may send in a submission to
cwds submissions@gmail.com

This is also a great time to join our Eco-Challenge
and track our efforts to creating more sustainable
habits. Join our team at:
https://campus.ecochallenge.org/participants/join?referral_code=cf7c51ec-c23a-4bad-8dbf-f6acabab1983&team_invitation=true

*Thank you to all
the
Environmental
Education
Partners*

PGMNH: Pacific Grove Museum of Natural History (Our Host)

MPPRD: Monterey Peninsula Regional Park District (The Park District keeping our access to open spaces)

We are CRWC: Carmel River Watershed Conservancy.
